

PROJECT:
TYPE:
PRODUCT:
APPROVED BY:

PRODUCT FEATURES

- Intended for Patient Rooms, Exam Rooms, Recovery Areas, Skilled Nursing and more
- · Recommeded to be used in pairs adjacent to the patient bed. Sold individually. Must order a "left" and a "right" for a complete pair
- Provides ambient, exam, reading, and night light illumination.
- Fixture is certified to UL standards by Intertek Testing Laboratory. Suitable for damp locations
- · This product is Made in America and complies with the Buy American Act (BAA), and the Build America, Buy America Act (BABAA)

ORDERING INFORMATION

Example: CPPG4R-HC/OC-L140-L240-2C-A-RI-LN-90C-UN-DM1-LV3

Specifications and dimensions are subject to change without notice. For additional options and dimensional details, please consult your New Star Lighting representative.

SPECIFICATIONS

HOUSING: 20-Gauge formed housing, seam welded and ground smooth. Available in aluminum, cold rolled steel, and stainless steel.

DOORFRAME: Inset and overlapping doorframe available in aluminum, cold rolled steel, and stainless steel.

LENS: Ambient and Exam lens available in .125" Prismatic Acrylic, and Prismatic Polycarbonate or White Frosted Polycarbonate options.

LED: Available in three color temperatures (3500K, 4000K and 5000K) with maximum 3-step MacAdam variation allowance. Minimum 50,000 hours with 70% lumen maintenance in a 25°C ambient temperature environment, compliant with IES LM-80 testing standards.

Optional BIOS® SkyBlue® circadian solutions to produce the healthy "blue sky" light signal with blue spectrum peak at 490nm+ for circadian entrainment. Bio-Dimming™ reduces CCT by 2700K.

ELECTRICAL: 120-277VAC 50/60Hz input, high power factor, constant current driver (<20% THD, >0.90 PF). Standard 0-10V dimming with 1-100% range for ambient and night light (if night light is selected). Ambient and Exam compartments default to 2 circuits (1 Ambient, 1 Exam) unless otherwise specified. Reading and/or Night Light each supplied with an additional independent circuit.

Optional BIOS driver options:

STC - BIOS control 0-10V with Dimming from 1%-100% and Dynamic Bios Dimming with 0-10V Intensity Dimming to 1% and Dim-to-Dark capabilities.

DMB - Dynamic BIOS control 0-10V with dynamic spectrum and BIOS SkyBlue® with Bio-Dimming™, which changes a spectral qualities by removing the SkyBlue component when dimming from 100%-51%, while light output remains relatively constant; CCT will decrease approximately 500K through bio-dimming; dimming from 50% to 1% will then reduce light output.

LOW VOLTAGE CONTROL: The Low Voltage Control (LVC3) option controls ambient function with dimming, and reading is non-dimming (on/off). The Exam and Night Light functions are on separate line voltage circuits; the nightlight LED board has (4) settings that are field selectable. The exam is typically wired to a wall switch (by others) and is dimmable. Other configurations are available – consult factory. One low voltage controller per pair is recommended. Leads are factory labeled for field installation. Controls and any additional accessories by others.

FINISH: White antimicrobial polyester powder coat finish following multi-stage iron phosphate pretreatment.

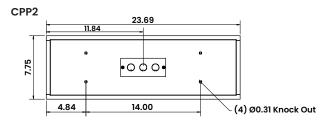

INSTALLATION: Grid or Flange installation. Flange fixtures are shipped with yoke and hardware to mount yoke to fixture.

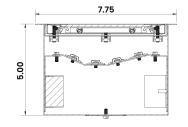

WARRANTY: 5 Year Warranty.

LABEL: Fixture is certified to UL standards by Intertek Testing Laboratories.

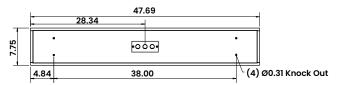

Suitable for damp locations. This product is Made in America and complies with Buy American Act (BAA), and the Build America, Buy America Act (BABAA).

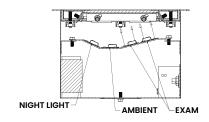

DIMENSIONAL DATA

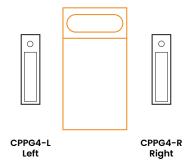

CPP4

ORDERING EXAMPLE

Sold as a single unit. Recommended to be used in pairs adjacent to patient bed. Order a "Left" and a "Right" for a complete pair (2 seperate line items). Consult factory with additional questions.

Specifications and dimensions are subject to change without notice. For additional options and dimensional details, please consult your New Star Lighting representative.
