PCG Series with VTP (Touching Petals®) Image Option Shown

**PRODUCT FEATURES**

Transform New Star Lighting’s versatile Overlapping Grid Series with a S.I.T.E.™ by Vara Kamin Image. S.I.T.E.™ (Sensory Immersion Transition Experience™) images provide visual support for patients in high-stress clinical care settings. Rich in color, movement and texture, Kamin’s paintings provide a calming point of focus to limit external stimuli by engaging active imagination, providing procedural distraction, and stimulating the relaxation response. Images sit directly over a standard grid, eliminating the need for bulky doorframes and creating the look of a luminescent ceiling. S.I.T.E.™ Images can be configured as a standalone image to an extended custom curated layout.
